## Community Emergency Response Team (CERT) Training

The City of Santa Barbara Fire Department invites you to register for the upcoming Community Emergency Response Team (CERT) Training. CERT is an 8-week training program where you will learn basic skills that can be used in the event of an emergency.

During a major disaster, emergency service providers including police, fire, and paramedic crews can quickly become overwhelmed. They may not be able to meet the heavy demand for services, causing a delay in emergency response. This may leave citizens without assistance for some time. CERT training will teach you to work with your neighbors as a team, and provide the basic skills to save and sustain the lives of you and your family until help arrives.

"The more people we train to know what to do in an emergency, the better off the whole community is," states Fire Chief, Ron Prince. "Trained community members are an incredible asset."

The program will include nine topics covering disaster preparedness, fire safety, disaster medicine, light search and rescue, team organization, disaster psychology, terrorism awareness and a hands-on disaster simulation as a final exercise.

**The next training starts April 10th and will run for 8 weeks, between the hours of 6 - 9 p.m.**

**Space is limited, so please call for an application. 564-5703**
